PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years building management systems for Peruvian companies: payroll, human resources, inventory and automation of SUNAT (Peru's tax authority) processes. I work with TypeScript end to end (NestJS, Prisma, PostgreSQL, Next.js), and with Java (Spring Boot) and Python when a project calls for it. I own the full cycle: requirements gathering, architecture, development, automated testing and deployment.

WORK EXPERIENCE

Tech Lead & Full Stack Developer — STI GOLD Jan 2026 – Present

- Lead end-to-end development of internal systems: architecture, backend, frontend and deployment.
- Automated queries to the SUNAT portal with Playwright and SQLAlchemy.
- Built REST APIs with Spring Boot and NestJS, with file storage on Wasabi S3.

TypeScript, NestJS, Java, Spring Boot, Hibernate, Python, PostgreSQL, Docker

Software Developer — JJMM Jan 2026 – Present

- Custom software for the company's operational needs.
- Automation of accounting processes with Python.

Python, React, TypeScript, PostgreSQL, Git

Full Stack Developer — SipnasisCode Jul 2025 – Dec 2025

- Built multiple business systems for the agency's clients under a confidentiality agreement.

TypeScript, NestJS, React, Next.js, Prisma, PostgreSQL, Tailwind CSS

Software Developer — GALDIAZ S.A.C. 2024 – Jul 2025

- Inventory control and stock management system with PHP and C#.
- Automated administrative tasks with Python and VBA macros; optimized the SQL Server database.

Python, PHP, C#, SQL Server, Excel VBA, Power BI

Front-End Developer & SEO — Mr. Sif 2024

- Web interfaces with AlpineJS and Tailwind CSS; SEO and digital marketing.

Web Developer — Ingecem Perú 2018 – 2022

- Inventory control system in C# and user interface development; requirements gathering with business users.

SELECTED PROJECTS

Multi-Company Payroll System Private · In development

- Calculates payroll under Peru's 6 private-sector labor regimes and generates payslips, for multiple companies in a single installation.
- Hexagonal-architecture backend with 370+ automated tests and a blocking CI pipeline.

NestJS, Prisma, PostgreSQL, Next.js, Tailwind CSS, Railway, Wasabi S3

SIGEMYPE — accounting firm management Private · In production

- SUNAT tax-filing schedules with alerts, daily team reports, and taxpayer ID (RUC/DNI) lookups.

NestJS, Prisma, PostgreSQL, Next.js

Multi-Company HR System Private · In production

- Employee, contract and document management per company, with PDF ID card generation.

NestJS, Prisma, PostgreSQL, Next.js

SUNAT Automation Source on GitHub

- Desktop app that bulk-downloads and classifies electronic invoices from the SUNAT portal.

Python, Playwright, SQLAlchemy, PySide6

TeachGenius · Tonin Source on GitHub

- TeachGenius: gamified learning platform where teachers create activities and students play in real time (NestJS, Prisma, Astro, React).
- Tonin: mood-based quotes web app with ambient music and an admin panel (React, Zustand, Spring Boot, Wasabi S3, Docker).
